2018 Distressed Communities Report

June 2018

This 2018 annual update of the distressed community list was prepared by the Alaska Department of Labor and Workforce Development (DOL&WD), Research and Analysis Section. DOL&WD used the most current population, employment and earnings data available to identify those Alaska communities and Census Designated Places (CDP's) considered "distressed". The distressed status is determined by comparing average income of a community or CDP to full-time minimum wage earnings, the percentage of the population earning greater than full-time minimum wage earnings and a measure of the percentage of the population engaged in year-round wage and salary employment.

This report uses enhanced physical place of residence information to better identify the community/CDP of residence for Permanent Fund Dividend applicants age 16 and over. Communities and CDP's included in this report are closely aligned with those used in the annual population place estimates prepared by DOL&WD.

This document includes a list of all Alaska communities and CDP's, and indicates whether they are considered distressed or non-distressed. The list also includes employment and earnings information used to determine the status of each location for 2017. Maps by economic region that show locations of communities and CDP's that meet the distressed criteria are also included.

Data Sources and Methodology

Three sources of data were used for the 2018 update:

- 2017 Permanent Fund Dividend applications (PFD). This information includes the applicant's age, social security number (SSN), and physical place of residence. The 2017 recent year PFD applications correspond with 2017 wage records, the most recent available.
- Alaska unemployment insurance wage records for calendar year 2017. This information includes wage and salary worker earnings from all private, state and local government employers. Federal government, military, and self-employed earnings are not available and not included in the earnings estimate.
- Calendar year 2016 Commercial Fisheries Entry Commissions (CFEC) total fish value data by community, the most recent data available.

To approximate the community/CDP income, DOL&WD combined the most recent fishery income and wage records. All 2017 PFD applicants age 16 and over in 2017 were assigned to an Alaska borough/census area and community by place of residence. PFD applicants age 16 and over were matched with wage and employment information by SSN. CFEC 2016 total fish values were added to wage and salary earnings to compute community average market income.

The minimum wage was \$9.80 in 2017. For a forty-hour work week, or 2,080 hours annually, the average market income threshold is \$20,384.

Surrogate Standard

In 2000, the Denali Commission adopted a “surrogate standard” method for determining if a location is considered distressed. A location that meets two of the following three criteria is considered distressed.

Criteria 1 - Average Market Income

$$\text{Average market income} = \frac{\text{Community Wage \& Salary Earnings} + \text{Community CFEC Earnings}}{\text{Number Residents 16 and Over}}$$

Any location with an average market income of less than \$20,384 in 2017 meets this criterion.

Criteria 2 - Percent of Residents Earning Less Than \$20,384

$$\text{Percent Residents w/Earnings} < \text{than } \$20,384 = 100 \times \frac{\text{Number Residents w/Earnings} < \text{than } \$20,384}{\text{Number Residents 16 and Over}}$$

Any location with 70% (or more) of its residents earning less than \$20,384 in 2017 meets this criterion.

Criteria 3 – Percent of Residents Working All Four Quarters

$$\text{Percent Residents Employed All 4 Quarters} = 100 \times \frac{\text{Number Residents Employed All 4 Quarters}}{\text{Number Residents 16 and Over}}$$

Any location with 30% (or less) of its residents employed in all four quarters of 2017 meets this criterion.

Distressed Locations

The following is a list of communities and CDP's that meet the surrogate standard.

Akhiok	Happy Valley	Old Harbor

Fox	Nome	Womens Bay
Galena	North Pole	Yakutat
Gateway	Nuiqsut	

Expanded Standard

DOL&WD also evaluated communities and CDP's against an expanded set of surrogate standard criteria. Under the expanded standard, the criteria are increased/decreased by 3% as appropriate, which results in more locations being classified as distressed. Again, a location must meet two of the following three criteria in order to be considered distressed.

Criteria 1 - Average earnings less than \$20,996* in 2017

* \$20,384 x 1.03

Criteria 2 - 67%* (or more) residents earned less than \$20,384 in 2017

* 70% - 3%

Criteria 3 – 33%* of residents (or less) employed in all four quarters of 2017

* 30% + 3%

Additional Locations Considered Distressed Based on the Expanded Standard

Buffalo Soapstone	Haines	Noatak
Chenega	Hollis	Northway
Chiniak	Homer	Petersburg
Clam Gulch	Kasilof	Platinum
Delta Junction	McGrath	South Van Horn
Eureka Roadhouse	Moose Pass	Sutton-Alpine
Gakona	Nenana	Wrangell

Appeals

The Denali Commission recognizes that in some cases the data collection and application methodologies described above do not accurately reflect the appropriate classification for some communities. Therefore, any community that believes a “non-distressed” classification was determined in error may submit an appeal to the Commission. Appeal determinations will be made based on new information (relevant economic data and facts) submitted by the Community that demonstrate the data used by DOL&WD in their original analysis was erroneous, invalid, or outdated. New information must come from a verifiable source, and be robust and representative of the entire community and/or population.

In addition to demonstrating the data compiled by DOL&WD was erroneous, invalid, or outdated, the new information must demonstrate that a community meets at least two of the three Surrogate Standard criteria, or two of the three expanded criteria defined above. Appeals with supporting data and facts must be sent in writing to:

*Denali Commission
 Attention: Director of Programs
 510 L Street, Suite 410
 Anchorage, AK 99501*

The Denali Commission will make an appeal determination in collaboration with DOL&WD based on the new verifiable information presented. Communities filing an appeal will be notified of the decision on their appeal in writing, within 30 days.

The following is a list of communities that have filed a successful appeal since 2001. This list is presented for historical purposes only. Communities that are classified as Non-Distressed by DOL&WD in any particular year, must file a new appeal for that year if they feel their status is in error.
