Subject: Re: State Disaster Declaration

Gd morning Ralph. Just wanted to inform you what on actions our council has taken. Air carriers were informed tht only residents are to travel in and out of the community. Travel is restricted to medical only. Residents are to follow cdc recomendations. The council has issued 500 dollars in electricity to each house hold as well as 150 gallons of fuel to encourage people stay home as much as possible. One thing tht concerns me is cleaning products. As you know it is already difficult to get products to rural alaska and the shelves in Anchorage are already depleted of these products, rural alaska is last inline as far as being able to get these products out of Anchorage. Anything you can do would be greatly appreciated. Thanks.
