## MEMORANDUM

Date: March 20, 2020  
To: Mayor, City Council, and Citizens of Togiak  
From: Shawn Kamkahpak, City Administrator  
Subject: City of Togiak Coronavirus Pandemic (COVID-19)

---

In light of recent developments involving COVID-19, DHSS strongly advises that all Alaskans read and comply with the CDC guidance to minimize the impact in our communities. Although confirmed cases do not appear to be community transmitted, it does raise the level of possibility that more cases will follow to include community transmission. To limit the opportunity for community transmission, the City of Togiak will be limiting public access to our facilities. There will be no group events in:

- Togiak City Office
- Arts & Crafts Center
- Family Resource Center

The City services including garbage collection, road maintenance and water & sewer will remain operational. The City Office will remain open at this time. Customers may be asked to observe social distancing while visiting. This may include maintaining distances between city staff and other customers. We encourage the use of email, phone, and postal service for payments to the City Office when possible to decrease the level of contact between people.

Public meetings will be utilizing technology to offer public opportunity to attend via teleconference. Essential services will continue, however there may be some inconveniences encountered when conducting business in person during this time of uncertainty.

Thank you for your understanding, and patience during this time of heightened concern.
