Those that hunt less-- circle the main reason for not hunting more?

Gas prices ice conditions weather busy working busy with family elder other _____

6) Any other comments about seals you would like to make?

Thank you for your time! The information from this survey is extremely important and is used by BBNA and ANO ice seal co-management organizations in co-managing ice seals with NMFS. The focus of the Bristol Bay Native Association Marine Mammal Program is to ensure that subsistence seal hunting is protected for future generations.
