

CHIGNIK BAY Emergency Operation Committee

Covid-19 Travel MANDATE

November 29, 2021

The Chignik Bay EOC team has set mandates in an effort to prevent the spread of COVID-19 within our community.

The following mandates are for everyone coming into Chignik Bay.

TRAVEL RESTRICTIONS:

Adults and Children who are traveling into Chignik Bay need to have a negative Covid-19 test within 72 hours prior to travel or get tested when you arrive in Chignik Bay if you do not get a test quarantine for 14 days.

If everyone in your household whom you are traveling with are fully vaccinated and each of you have a negative test, no need to quarantine unless experiencing symptoms. (If you are not able to test prior to departing from your destination you may test at the clinic when you return but you will need to quarantine until you are tested and receive a negative test).

If you or someone in your household whom you are traveling with are not full vaccinated, then your household need to have a negative covid-19 prior to coming into the village or if you are unable to get a test you can contact the clinic to set up a time to get tested. Quarantine for 5 days on the 5th day everyone who is unvaccinated needs another negative covid-19 test and if no one is experiencing any covid-19 symptoms quarantine is no longer necessary.

If you or your entire household does not want to get a covid-19 test, your household will need to quarantine for the full 14 days.

- Per CDC guidelines it is still recommended to take precautions in public settings by wearing a mask and maintaining 6 feet distance.
- Ignoring or violating this mandate can result in removal of services provided by the Chignik Bay Tribal Council.
